Practice Control System for a Better Dental Practice

Running a dental office... **or running yourself into the ground?**

01 Are you sure every dollar you earn makes it to your bank?

- Revenue leaking — charges unbilled, payments unposted
- Reconciliation gaps hiding between systems
- No clear picture of income vs. expenses
- Write-offs & adjustments never reviewed

02 Are you the dentist... but stuck doing admin all day?

- Hours spent pulling numbers manually
- Issues found too late — costing money, time & trust
- Chasing insurance, claims, and payments after hours
- Less chair time, more paperwork

03 Why is your office busy — but not profitable?

- No clear picture of income vs. expenses
- Relying on gut feeling or outdated reports
- No real-time visibility into performance
- Production up, collections lagging

04 Are patients coming in... and quietly slipping away?

- Patient attrition went unnoticed
- Patients leave without booking future appointments
- Provider's schedule not full or well-organized
- Recall & reactivation falling through the cracks

05 Do small mistakes keep happening — no matter how much you train?

- Lab case not ready, patient already in chair
- Insurance not verified before appointment
- Payment not collected or posted wrong
- Key documents missing — consent forms, crown history

06 Do you actually know where your money is leaking?

- Hours spent pulling numbers manually
- No real-time visibility into performance
- Too complicated or too expensive to get such insight
- Relying on gut feeling or outdated reports

→ Flip over. The answers might surprise you. →

A calm, lubricated, profitable office is closer than you think.

A Smooth, Profitable & Confident Dental Practice Starts Today

Custom-developed software + holistic consulting & training. Build your dream dental office — we're here to make it happen.

Revenue Integrity

Every dollar earned is billed, collected, and accounted for.

- ✓ Monthly reconciliation across all systems
- ✓ Every missing transaction detected & resolved
- ✓ Income & expenses classified clearly
- ✓ We take care of you until your staff is well trained

Operational Control

Like your best office manager works 24/7 to guide your team. Every mishap flagged in real time.

- ✓ Daily automated QC audits by role
- ✓ Proactive alerts for upcoming days
- ✓ All issues on one page per role
- ✓ Executive view for Office Manager
- ✓ Customized to your office's policy and practice

Practice Intelligence

Easy-to-use dashboards. Production, P&L, provider & patient analytics, and much more.

- ✓ Production & collection dashboards
- ✓ P&L tracking & trend forecasting
- ✓ Provider & patient analytics
- ✓ Custom reports & data exports
